#### **Summary**

This item will consider naming an academic center at California State University, Long Beach (CSULB) as the Clorinda Donato Center for Global Romance Languages and Translation Studies.

This proposal, submitted by CSULB, meets the criteria and other conditions specified in the Board of Trustees Policy on Naming California State University Academic Entities, including approval by the system review panel and the campus academic senate.

#### **Background**

The proposed naming of the center recognizes the \$1.1 million gift by Mario Giannini to CSULB's College of Liberal Arts. The gift will be used to create an endowment to provide ongoing funding, which will generate \$45,000 per year (present value) in support of the Clorinda Donato Center for Global Romance Languages and Translation Studies.

Mario Giannini is the Chief Executive Officer of Hamilton Lane and sits on the firm's Investment Committees. He is responsible for the firm's strategic direction and oversees the development of the firm's management structure and process. Giannini also plays a significant role in providing client services to the firm's numerous clients and in marketing the firm's products and services. In addition, Giannini serves on several advisory boards on behalf of Hamilton Lane and its clients, including Thomas H. Lee, TPG Partners and Providence Equity Partners.

Giannini received a juris doctor from Boston College, a master of laws degree from the University of Virginia, and a bachelor's degree from California State University, Northridge.

Giannini is proud to create an academic center named after Dr. Clorinda Donato, a long-time acquaintance and friend. Giannini and Donato's friendship spans several decades and his respect and admiration of her work has grown over the years. Giannini's passion for the humanities and a deeper understanding between cultures inspired him to create a center that will serve as a wellspring for Donato's research and talent.

Since joining the Romance, German, Russian Language and Literatures (RGRLL) Department in 1988, Donato has taught some twenty courses—many of which she created or co-created. She has also spearheaded the creation of several new degree programs. However, Donato is proudest of working with community members to establish the George L. Graziadio Center for Italian Studies and of her involvement with the NEH-funded project, “French and Italian for Spanish Speakers,” which has become a national model for multilingual communication and language acquisition.

Donato's published research spans eighteenth-century cultural studies in the areas of knowledge transfer through translation and genre adaptation in encyclopedic compilations across six languages; she also works on gender in medical and literary accounts, the Catholic and Protestant Enlightenments in Italy and Europe, and book history. Multilingual and intercultural teaching and research form a second core of scholarly and pedagogical pursuits over the past ten years. Donato has published seven authored, co-authored, or co-edited books and over 75 articles in the aforementioned fields and is a highly sought after presenter at conferences and workshops in her varied fields of study.

Donato was recognized as a Chevalier dans l'Ordre des Palmes Académique by the French Government in 2005 in recognition of her promotion of French language and culture. In 2011, Donato received the award “Educator of the Year” from The Sons of Italy of America for her dedication to the teaching of Italian language and culture and Italian American Studies. In 2016, she was recognized as the “Outstanding Professor” at CSULB.

#### **Summary**

This item presents information on philanthropic support received by the California State University system from July 1, 2015 to June 30, 2016. Section 89720 of the Education Code requires that an annual gift report be submitted to the California Joint Legislative Budget Committee and the California Department of Finance.

A full report is available at <http://www.calstate.edu/philanthropic>.

#### **Overview**

The legacy of philanthropic support continues to grow throughout the California State University. The CSU continues to benefit from increases in philanthropic support, furthering our systemwide efforts and educational mission to provide access to opportunity for all Californians.

Donors made significant investments in our students by providing \$53 million in private scholarships. Beyond making college more affordable, these scholarships bolster students' dreams, raise confidence, and broaden horizons.

This year, the CSU reached an all-time high of 242,000 individual donors, an annual increase of 11,000 over the prior year. The increase was energized by our growing network of 3.3 million alumni which collectively reaffirmed its commitment to the values and vision of the university. An additional 5,500 alumni made gifts to the CSU in 2015-2016 compared to the prior year.

The increase in individual donors powered gift commitments to the CSU and its 23 campuses, which increased 22 percent – over \$86.7 million – to a record high of nearly \$489 million.

The majority of all gifts serve the immediate needs of CSU students, faculty and staff. These gifts provide students from diverse and dynamic communities across California access to educational opportunity and achievement, facilitate innovative teaching and advisement, and enhance the learning environment and student experience.

In 2015-2016, the CSU received \$181.4 million in support of these efforts:

- \$26.8 million for student scholarships
- \$49.2 million for academic enrichment
- \$10.5 million for directed research
- \$2.1 million for faculty support
- \$3.6 million for library resources
- \$17.5 million for athletics
- \$34.8 million for public service programs
- \$1.9 million for equipment and facility improvements
- \$35.0 million for other designated priorities

Unrestricted support of \$10.3 million represents three percent of all gifts received and is available for high-priority needs. Additionally, campuses received \$22.3 million in property and capital improvement gifts.

In 2015-2016, donors contributed an additional \$64 million to endowments. The total market value of endowments reached \$1.4 billion systemwide. These endowments distributed \$46 million to support student scholarships, research, creative activities and other programs.

**Performance Benchmarking**

Gift commitments, which consists of new gifts, pledges and revocable deferred gifts represent the breadth of philanthropic activity and are used as an internal performance benchmark.

The benchmarks are based on peer groups of similar size and capacity. Gift commitments are compared to the State General Fund allocation which tends to calibrate to the current economic conditions. Group I campuses are making incremental progress toward raising an equivalent of 10 percent of the state budget allocation. Group II campuses are expected to raise an equivalent of 10-15 percent of the state budget allocation. Group III campuses are expected to raise more than 15 percent. Overall, the CSU raised an equivalent of 20 percent of the state budget allocation.
