California State Polytechnic University, Pomona Student Housing Replacement Project: Certification of the Final Environmental Impact Report and Approval of the 2016 Master Plan Revision
(RCPBG 11-16-14)

RESOLVED, by the Board of Trustees of the California State University, that:

1. The FEIR for the California State Polytechnic University, Pomona Master Plan Revision has addressed any potentially significant environmental impacts, mitigation measures, project alternatives, comments and responses to comments associated with approval of the proposed campus master plan revision pursuant to the requirements of the California Environmental Quality Act and State CEQA Guidelines.
2. The FEIR addresses the proposed campus master plan revision and all discretionary actions related to the project as identified in the Final EIR.
3. This resolution is adopted pursuant to the requirements of Section 21081 of Public Resources Code and Section 15091 of State CEQA Guidelines which require that the Board of Trustees make findings prior to the approval of a project.
4. The board hereby adopts the Findings of Fact and Mitigation Monitoring and Reporting Program, including all mitigation measures identified therein, for Agenda Item 4 of the November 15-16, 2016 meeting of the Board of Trustees’ Committee on Campus Planning, Buildings and Grounds, which identifies the specific impacts of the proposed campus master plan revision and related mitigation measures, which are hereby incorporated by reference.
5. The board hereby adopts the Findings of Fact and Statement of Overriding Considerations that outweigh certain unavoidable impacts to aesthetics, historic resources, and short term peak construction day cumulative air quality.

6. The FEIR has identified potentially significant impacts that may result from implementation of the proposed campus master plan revision. However, the Board of Trustees, by adopting the Findings of Fact, finds that the inclusion of certain mitigation measures as part of the project approval will reduce most, but not all, of those effects to less than significant levels. Those impacts which are not reduced to less than significant levels are identified as significant and unavoidable, and are overridden due to specific project benefits to the CSU identified in the Findings of Fact and Statement of Overriding Considerations.

7. Prior to the certification of the FEIR, the Board of Trustees reviewed and considered the above-mentioned FEIR, and finds that the FEIR reflects the independent judgment of the Board of Trustees. The board hereby certifies the FEIR for the project as complete and adequate in that the FEIR addresses all potentially significant environmental impacts of the project and fully complies with the requirements of CEQA and State CEQA Guidelines. For the purpose of CEQA and State CEQA Guidelines, the administrative record of proceedings for the project includes the following:
   a. The 2016 Draft EIR for the California State Polytechnic University, Pomona Campus Master Plan;
   b. The Final EIR, including comments received on the Draft EIR, and responses to comments;
   c. The proceedings before the Board of Trustees relating to the subject master plan revision, including testimony and documentary evidence introduced at such proceedings; and
   d. All attachments, documents incorporated and references made in the documents as specified in items (a) through (c) above.

8. The Board of Trustees hereby certifies the FEIR for the California State Polytechnic University, Pomona Campus Master Plan Revision dated November 2016 as complete and in compliance with CEQA.

9. The mitigation measures identified in the Mitigation Monitoring and Reporting Program are hereby adopted and shall be monitored and reported in accordance with the Mitigation Monitoring and Reporting Program for Agenda Item 4 of the November 15-16, 2016 meeting of the Board of Trustees’ Committee on Campus Planning, Buildings and Grounds, which meets the requirements of CEQA (Public Resources Code, Section 21081.6).

7. The chancellor is authorized to make adjustments in the projects to be financed as necessary to maximize use of the limited financing resources and consideration of the CSU’s priorities for funding capital outlay projects, including reducing the financing amount to less than $1,000,000,000, as noted in Attachments A and B of this Agenda Item 1 of the November 15-16, 2016, meeting of the Joint Committees on Finance and Campus Planning, Buildings and Grounds.
