**AGENDA**

**COMMITTEE ON AUDIT**

**Meeting:** 11:25 a.m., Tuesday, July 11, 2023  
Glenn S. Dumke Auditorium

Yammilette Rodriguez, Chair  
Jean Picker Firstenberg, Vice Chair  
Leslie Gilbert-Lurie  
Lillian Kimbell  
~~Romey Sabalius~~  
Lateefah Simon  
Christopher Steinhauser

**Consent**

1. Approval of Minutes of the Meeting of May 24, 2023, *Action*
2. Status Report on Audit and Advisory Services Activities, *Information*

**MINUTES OF THE MEETING OF  
COMMITTEE ON AUDIT**

**Trustees of the California State University  
Office of the Chancellor  
Glenn S. Dumke Auditorium  
401 Golden Shore  
Long Beach, California**

**May 24, 2023**

**Members Present**

Lateefah Simon, Chair  
Yammilette Rodriguez, Vice Chair  
Diana Aguilar-Cruz  
Jack Clarke, Jr.  
Lillian Kimbell  
Jack McGrory  
Wenda Fong, Chair of the Board

Trustee Lateefah Simon called the meeting to order.

**Approval of the Consent Agenda**

The minutes of the March 21, 2023, meeting of the Committee on Audit were approved as submitted.

Item two, Status Report on Audit and Advisory Services Activities, was an information item.

**Fiscal Year 2023-2024 Audit Plan**

Vlad Marinescu, vice chancellor and chief audit officer, presented the annual audit plan for fiscal year 2023-2024 for review and approval. The primary objective of the audit plan is to provide assurance that risks are being mitigated and that CSU controls are designed and operating effectively. Each year, Audit and Advisory Services engages in an annual audit planning process to develop a comprehensive risk-based audit plan that addresses both systemwide risks and individual campus-specific risks.

The foundation of the assurance audit plan is focused on the core support areas of Administration and Compliance; Business and Finance; and Information Technology. The second segment of the plan is focused on Academic Administration; Student Activities and Services; and University

Relations and Advancement. The final segment of the plan focuses on auxiliary organizations. A brief description of each planned audit topic is included in Appendix A of the agenda item.

The assurance audits portion of the audit plan also includes data analytics. Audit and Advisory Services' data analytics program includes four core areas: assurance audit support, data analytics projects, periodic monitoring of analytic results, and database and dashboard management. The data analytics plan includes seven major projects. These projects cover a range of topics and are in various stages of the development cycle which includes design, build, analyze, and monitor. A brief description of each planned data analytics project is included in Appendix B of the agenda item.

The 2023-2024 audit plan consists of five primary functional areas: assurance audits and data analytics, advisory services, investigations and intergovernmental audits, outreach and engagement, and audit support. Sixty-five percent of staff resources are allocated toward assurance audits and data analytics. Resources are also allocated toward advisory services, investigations and the coordinating of intergovernmental audit, outreach and engagement, and audit support.

The Fiscal Year 2023-2024 Audit Plan was approved.

### **Audited Financial Statements and Single Audit Report**

Tracey Richardson, assistant vice chancellor and controller, presented the fiscal year (FY) 2021-2022 CSU Financial Statements, Single Audit Report, and results of the annual external audit performed by KPMG.

Ms. Richardson shared a summary of the revenues for the year ended June 30, 2022, compared to the prior year. Total revenues from all sources were \$14 billion for FY 2021-2022, which was \$1.5 billion higher than the previous year. The largest source of revenue was state appropriations of \$5.6 billion, or 40 percent of total revenues. Grants, contracts, and gifts constituted \$4.9 billion, which represented 35 percent of total revenues, and included \$1.6 billion in Higher Education Emergency Relief Funds (HEERF). Student tuition and fees net of scholarship allowance represented 17 percent of total revenues.

A comparative summary of the expenditures for 2021-2022 in comparison with the 2020-2021 fiscal year was also presented. Operating and nonoperating expenses totaled \$12.6 billion for 2021-2022, of which the largest component was salaries and benefits. Total expenses increased by approximately \$600 million from the prior year.

Ms. Richardson reported that the audited financial statements also include information on the CSU's liabilities and assets, which are presented in the statement of net position. The overall net deficit position of \$9.6 billion improved by \$1.4 billion over the prior year. Government entities are required to report long-term post-employment and pension benefit obligations and this is reflected as a negative \$22.9 billion as of June 30, 2022. CSU's positive unrestricted other net

position of \$6.1 billion as of June 30, 2022, increased by \$1.1 billion over the prior year. Increases in state appropriations contributed to the growth in net position. Designated balances and reserves are a component of the \$6.1 billion of unrestricted net position. Designated balances include short-term obligations, capital needs, and catastrophic events. As of June 30, 2022, the amount set aside for economic uncertainty by the 23 universities and the chancellor's office was \$713 million, or about 1 month of operating expenses.

Federal award expenditures for the 23 universities and the chancellor's office amounted to \$3.9 billion for FY 2021-2022. The external auditors focused the compliance audit on HEERF grants with \$1.6 billion in expenditures and expenditures for research and development grants amounting to \$22 million. There were two audit findings. One identified untimely and incomplete quarterly reporting requirements for HEERF at three universities. Another found noncompliance with the federal requirement to conduct physical inventory of federally funded purchases of equipment and real property at least once every two years at one university. Auxiliaries issue stand-alone single audit reports and one auxiliary had two audit findings regarding a lack of internal control to ensure documentation compliance with the grant requirements. There were no questioned costs identified during the audit. The audit findings are significant deficiencies and did not rise to a material weakness and KPMG issued an unmodified audit opinion.

The CSU prepares annual financial statements that consolidate financial information for all 23 universities, the chancellor's office and 93 component units (mostly auxiliaries). The universities and chancellor's office have no audit findings and KPMG issued an unmodified audit opinion. Each component unit also conducts its own financial statement audit. Of the 93 component units, seven had a combined four material weaknesses and five significant deficiencies. The corrective actions for all audit findings have been submitted and accepted. All 93 component units also received an unmodified audit opinion and fewer audit findings than last year.

Chris Ray, audit partner at KPMG, reported that the results of the CSU audit include an unmodified audit opinion on the financial statements and single audit reports. The accounting principles for the CSU system are summarized in footnote 2 of the financial statements and there was one change this year related to the adoption of GASB 87, a requirement related to the accounting of leases. Mr. Ray noted that the CSU's actuarial assumptions that are used as part of the pension and OPEB liabilities are tested by KPMG. There were no corrected misstatements to the financial statements. There were a couple of uncorrected misstatements that were considered immaterial to the financial statements. The report on government auditing standards and internal controls related to financial reporting had no audit findings. For the Single Audit there were two audit findings, which were discussed in Ms. Richardson's presentation.

Trustee Rodriguez adjourned the Committee on Audit.

## **COMMITTEE ON AUDIT**

### **Status Report on Audit and Advisory Services Activities**

#### **Presentation By**

Vlad Marinescu  
Vice Chancellor and Chief Audit Officer  
Audit and Advisory Services

#### **Summary**

This item provides an update on internal audit activities and initiatives. It also includes a status report on the 2022-23 and 2023-24 audit plans. Follow-up on current and past assignments is being conducted on approximately 40 completed campus reviews. Attachment A summarizes the status of audit assignments by campus.

For the current year audit plan, assignments were made to execute individual campus audit plans and conduct financial, operational, compliance, and information technology audits; use continuous auditing techniques and data analytics tools; provide advisory services; support intergovernmental audits; and perform investigation reviews, as needed.

### **ASSURANCE AUDITS AND DATA ANALYTICS**

#### **Status of In-Process and Completed Audits**

Audit and Advisory Services is wrapping up work on the 2022-2023 audit plan and has commenced work on the 2023-24 audit plan. Thirty-seven audits have been completed as part of the 2022-23 audit plan and the remaining 13 audits are anticipated to be completed by September 2023. Audits for 2023-24 have commenced, with fieldwork for eight campus audits starting by the end of July 2023. Completed audit reports are posted on the California State University website at <https://www2.calstate.edu/csu-system/transparency-accountability/audit-reports>.

The status of campus progress toward implementing recommendations for completed audits is included in Attachment A. Prior year audits that have open recommendations are also included in Attachment A and are removed from the report once all recommendations are completed.

Both campus management and audit management are responsible for tracking the implementation/completion status of audit recommendations contained in campus audit reports. During the audit process, campus management identifies a target completion date for addressing each audit recommendation. Target completion dates are subject to approval by audit management prior to the audit report being finalized. Implementation timelines are reviewed for appropriateness, reasonableness, and timeliness, which also includes evaluating the nature and

level of risk and whether any mitigating controls can or should be put in place on an interim basis while audit recommendations are being implemented.

If there are difficulties or unexpected delays in addressing/completing audit recommendations within the agreed upon timeframes, escalation processes for resolution are followed by audit management. Audit management first contacts the campus senior leadership team (president and/or VP/CFO) to resolve any delays. In rare instances in which delays cannot be resolved during discussions between campus and audit management, the chancellor and audit committee chair and/or vice chair may help resolve delays, as needed.

### Data Analytics

The data analytics team is continuing its effort to monitor credit card data by reviewing potential anomalies and policy exceptions. The team is finalizing the credit card dashboards that will be shared with campus liaisons. The dashboards will provide campuses with an overview of the campus credit card program, including trends and activities, and increase effort to proactively address any potential anomalies. For Concur travel expenditures, the data analytics team is preparing for the next quarterly dashboard data upload.

Additionally, work continues on the new risk indicator and payroll dashboards. Student and auxiliary data continue to be evaluated for possible use on future dashboards.

## ADVISORY SERVICES

Audit and Advisory Services partners with management to identify solutions for business issues, offer opportunities to improve the efficiency and effectiveness of operating areas, and assist with special requests, while ensuring the consideration of related internal control issues. Advisory services are more consultative in nature than traditional audits and are performed in response to requests from campus management. The goal is to enhance awareness of risk, control and compliance issues and to provide a proactive independent review and appraisal of specifically identified concerns. Reviews are ongoing.

## INVESTIGATIONS AND INTERGOVERNMENTAL AUDITS

Audit and Advisory Services is periodically called upon to provide investigative reviews of alleged fiscal improprieties. Investigations are performed both at the request of an individual campus or the chancellor's office and by referral from the state auditor.

Additionally, Audit and Advisory Services assists with tracking external audits being conducted by state and federal agencies, offers assistance to campuses undergoing such audits, and acts as a liaison for the California State University system throughout the audit process when appropriate.

The Joint Legislative Audit Committee (JLAC) held a hearing on June 26, 2023, to consider audit requests from legislators. At the hearing, JLAC approved an audit of the California State University and University of California related to community college transfers. The scope and objectives of the audit are available on the State Auditor's website (<https://www.auditor.ca.gov/pdfs/analyses/2023-123.pdf>).

On June 27, 2022, JLAC approved two audits of the California State University: 1) an audit of California State University's handling of sexual harassment complaints (Title IX); 2) an audit of the California State University's compliance with the Native American Graves Protection and Repatriation Act (NAGPRA). The California State Auditor (CSA) began both audits in November 2022.

For the Title IX audit, the CSA audit team is concluding its report writing process. The report is scheduled to be released on July 18.

The NAGPRA audit report was issued on June 29, 2023. The audit directed six recommendations to the Chancellor's Office and one to the California Legislature. The CSA requires detailed follow-up responses on the implementation of the report's recommendations at 60 days, six months, and one year after the report's release, and annually thereafter if recommendations are still open. Audit and Advisory Services is responsible for coordinating the CSU's follow-up responses to the audit. A copy of the full report can be found on the State Auditor's website (<https://www.auditor.ca.gov/pdfs/reports/2022-107.pdf>).

In addition to the JLAC approved audits described previously, the CSA prepares biennial reports on high-risk issues that "the CSA identifies as high risk for their potential of waste, fraud, abuse or mismanagement, or that have major challenges associated with their economy, efficiency, or effectiveness." In 2013, the CSA identified affordability in higher education as a high-risk issue for both the California State University and University of California systems. Since then, the CSA has continued to assess affordability as a high-risk issue every two years. The CSA began the review with an entrance conference on February 10, 2023. The goal of their review is to update the status of high-risk issues from their last report and determine if the issues will stay on the high-risk list. The report is scheduled to be released in August 2023.

The last report was issued in August 2021 and found that although the CSU has taken some steps to improve affordability, those actions have not fully addressed or resolved affordability challenges. The full report can be found at <https://www.auditor.ca.gov/pdfs/reports/2021-601.pdf>. The "Higher Education – Affordability" section starts on page 9.

Audit and Advisory Services is also responsible for maintaining and administering the CSU policy on Campus Reporting of Fiscal Improprieties (Executive Order 1104) and recently revised the policy to include a reference to the California Public Employees' Pension Reform Act, which states

that members who have been convicted by a state or federal trial court of any felony under the law for conduct arising out of or in the performance of his or her official duties, in pursuit of the office or appointment, or in connection with obtaining salary, disability, service retirement, or other benefits, must forfeit all accrued rights and benefits in any public retirement system they are a member of at the time the felony is committed retroactive to the first commission. If the employee is convicted of a felony for the misconduct at work, the campus must notify CalPERS within 90 days of the employee's conviction. The policy can be found in the CSU Policy Library (<https://www.calstate.edu/policies>).

### OUTREACH AND ENGAGEMENT

Audit and Advisory Services continues to partner and work with our campus and system stakeholders beyond what would be the usual course of business for an audit or advisory review in order to find opportunities to add value to the organization when possible. This includes partnering activities such as participating and leading affinity groups, providing support to campus and chancellor's office management, sharing information and common themes across campuses, and acknowledging feedback and insights provided by management.

After the CSU Board of Trustees Committee on Audit approved the annual audit plan for fiscal year 2023-24, audit management provided each campus with their customized audit plan. Additionally, audit management presented the overall audit plan to the campus CFO affinity group in June 2023.
