

2019 SUMMER ALGEBRA INSTITUTE

A 6-week program designed to help high school students learn skills and techniques to improve their knowledge of math and quantitative reasoning

- Led by credentialed math teachers
- Offers CSU campus visits and college knowledge workshops
- Hands-on learning with group projects and STEAM activities
- Practice math concepts with EdReady, an online application for math readiness

The CSU Office of the Chancellor is currently accepting applications from community-based organizations interested in hosting the Summer Algebra Institute
