RE: California State University Student Success Fees

The following reports a summary of student success fees adopted or rescinded in the prior academic year, and the uses of proposed and currently implemented student success fees by the California State University (CSU).

This report fulfills the requirements of Section 89712 of the Education Code, which identifies the information to be contained in the report submission, and is prepared by December 1 of each year for the Legislature and Department of Finance.
Should you have any questions about this report, please contact Ryan Storm, Assistant Vice Chancellor for Budget at rstorm@calstate.edu or (916) 449-3542.

Sincerely,

[Signature]

Steve Relyea
Executive Vice Chancellor and
Chief Financial Officer

   Loren J. Blanchard, Executive Vice Chancellor and Chief Academic Officer
   Garrett Ashley, Vice Chancellor, University Relations and Advancement
   Kathleen Chavira, Assistant Vice Chancellor, Advocacy and State Relations
   Ryan Storm, Assistant Vice Chancellor for Budget
   Kara Perkins, Executive Budget Director
Background

As required by Section 89712 of the Education Code, the California State University (CSU) is required to report a summary of the student success fees adopted or rescinded in the prior academic year and the uses of proposed and currently implemented fees. This statute is consistent with adopted CSU policy that requires annual reporting to the public.

A “student success fee” is a type of category II campus-based mandatory fee that is required to be paid by a student before that student may enroll or attend a specific CSU campus, as determined by that campus or the chancellor of the CSU. When the governor signed Senate Bill 860 in June 2014, it added Education Code Section 89712 and placed a moratorium on approval of new CSU student success fees until January 1, 2016. The role, process, and enactment of category II campus-based mandatory student success fees were further codified when the governor signed Assembly Bill 1000 in 2015, incorporating provisions adopted by the CSU Board of Trustees for CSU student fee policy related to student success fees.

Additional information regarding the CSU’s student success fees can be found at http://www.calstate.edu/studentsuccessfees/. The website provides additional background, fee amounts and revenue by campus, and the process to establish, revise or repeal the fees. It also has links to each campus’ student success fee website for more detailed information by campus.

Changes to Student Success Fees in 2017-18

While the moratorium on new student success fees ended on January 1, 2016, no new fees have been proposed or adopted since that moratorium, including during the 2017-18 academic year. Additionally, no student success fees were rescinded. The only changes to student success fees in 2017-18 were previously-programmed increases approved prior to the effective date of the moratorium, or small increases to reflect inflation adjustments.
Twelve campuses had student success fees that ranged from $173 to $833 in 2017-18. The average student success fee at the 12 campuses was $405 in 2017-18, an increase of $24 from the previous year. If all 23 campuses are considered, including those without student success fees, the average per campus was $211 in 2017-18.

**Use of Student Success Fees**

A student success fee is a type of campus-based, campus-driven, campus-managed fee designed to enhance the quality of the campus environment and academic programs to improve the experience of students on a specific campus. Because each fee was uniquely created to serve specific campus purposes, no student success fee is identical to any other. Each reflects the priorities of the campus where it was adopted.

The table below shows how revenue from student success fees was expended in 2017-18:

<table>
<thead>
<tr>
<th>Campus Identified SSF Activity Area:</th>
<th>Actual Expenditures:</th>
<th>Percentage:</th>

</table>

Implementation and use of these fees began in 2008 at one campus and currently are required for students at 12 of the 23 CSU campuses. The campus community determines the need for a student success fee and how the fee revenue is to be used to improve the quality of academic programs or the experience on campus for students. Student success fees have been used in a number of ways, depending on each campus' decision. Some campuses have dedicated significant portions of the student success fee revenues for enhancements to technology infrastructure, library resources and hours, laboratory space, career programs, services for disabled students and veterans, athletics and additional services and benefits for students that would otherwise be unfunded. Other campuses have used student success fee revenues to hire additional faculty, advisors, counselors and tutors, add course sections, and fund other educational needs traditionally supported in part by tuition and state appropriation. Some student success fees also help fund capital improvements including library expansion projects.
