RE: California State University Report: Assembly Bill 1062, Cross-Enrollment: Online Education

The California State University launched the Calstate Fully Online Course Catalog to help students get the courses they need, maximize access, reduce bottleneck courses, improve student success and increase timely graduation for students through the use of innovative online technologies. Through CSU Fully Online, CSU undergraduate students have the opportunity to take one free fully-online course per semester/quarter offered at another CSU campus every term.

The CalState Online Course Catalog is the central location for CSU students to find and enroll in online courses available at other CSU campuses. The information can be found at:
