PAID Summer Internships!
COAST offers **PAID** internships for continuing CSU undergraduate and graduate students to explore the ocean, learn about ocean policy, or help protect marine species! Work side-by-side with professional scientists and experts on current projects and gain valuable experience and technical skills.

Ten internships are available throughout the state for Summer 2021. Each internship offers a **$6,000** stipend for a 10-week commitment.

**Get More Info!**
There will be an informational webinar on **February 9, 2021** from 12:00-1:00 pm PST. Register to learn more about each internship and their individual application requirements.

Students who are members of a group that is historically underrepresented in marine and coastal science are strongly encouraged to apply. Applicants of any race, ethnicity, color, religion, gender, gender identity or expression, sexual orientation, national origin, age, dis/ability or veteran status are welcome.

Students from natural and social science disciplines are encouraged to apply.

**Apply!**

**Application Deadline:**
**March 2, 2021, 5:00 pm**
